

**MCHC QUARTERLY MEETING**  
**“Helping Adolescents Face Their Ever-Changing  
and Challenging World”**

Friday, January 23, 2008

8:00 – 11:00 a.m.

Research Medical Center

Brookside Campus, Curry Auditorium

6675 Holmes, KCMO 64131

Don't miss the opportunity to join your colleagues in learning about and understanding the destructiveness of bullying, the emotional, medical and educational challenges for youth today, and how we can help them flourish in a challenging and often confusing world.

National expert Randy Wiler, director of the Kansas Bullying Prevention Program, will teach us how we can better work with today's adolescents. Additionally, Dr. Bob Batterson, child psychiatrist from Children's Mercy Hospitals and Clinics, will discuss the impact of bullying and other psychological and medical issues facing today's youth. Pamela Pearson, executive director of the Genesis School, will share her personal story as well as her experiences working with at-risk teens. A student will also help us understand the real world of a teen today and how we can be more effective and helpful to our youth as professionals, parents and members of our community.

Exhibitors will be sharing information regarding all of these topics. Application has been made for continuing education (CME/CE) credit for physicians and nurses. Certificates of Attendance will be awarded to all non-nursing/physician participants that can be used for individual continuing education credit. CME/CEs are free to MCHC members. The fee for non-MCHC members is \$25.00. For more information, please contact Rita Muehlbach at (816) 283-6242 ext. 251 or [rmuehlbach@mchc.net](mailto:rmuehlbach@mchc.net).
